Terms of acceptance for care

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working toward the same objective. It is important that each patient understands both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment. You have the right, as a patient, to be informed about the condition of your health and the recommended care and treatment to be provided so that you may take the decision whether to undergo chiropractic care after being advised of the known benefits, risks, and alternative.

Chiropractic is a science and art which concerns itself with the relationship between structure (primarily the spine) and function (primarily the nervous system) as that relationship may affect the restoration and preservation of health.

Health is the state of optimal physical, mental and social well-being, not merely the absence of disease or infirmity

Vertebral subluxation is the disturbance to the nervous system that occurs when one or more of the 24 vertebrae in the spinal column becomes misaligned and/or do not move properly. This causes alteration of nerve function and interference to the nervous system. This may result in pain and dysfunction or may be entirely asymptomatic. Subluxations are correct and/or reduces by an adjustment

Adjustment is the specific application of forces to correct and/or reduce vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine. Adjustments are usually done by hand but may be performed by handheld instrument. In addition, ancillary procedures such as extremity adjustment, physiotherapy and or rehabilitation procedures maybe included.

If during the course of care we encounter non-chiropractic or usual findings, we will advise you of those findings and recommend that you seek the services of another health care provider.

All questions regarding the doctor's objective pertaining to my care in this office have been answered to my complete satisfaction. The benefits, risks and alternative of chiropractic care have been explained to me to my satisfaction. I have read and fully understand the above statements and therefore accept chiropractic care on this basis

Insurance Disclaimer

If you have insurance, we will, as a courtesy, bill your insurance and help you receive the maximum allowable benefit under your policy.

It is your responsibility to provide all correct and necessary insurance eligibility, identification, authorization and to notify our office of any information changes when they occur. With most insurance companies we have a short window to file your claim. If we pass this window of opportunity your policy may state that the insurance has no responsibility to pay on your claim. Unfortunately, even a preauthorization of services does not guarantee payment from your insurance carrier. Failure to provide all required information may necessitate patient payment in full for all charges. We have no control over contractual downgrades of services by your insurance company and assume no monetary liability based upon any downgrade of benefits. The insurance company will not disclose this information ahead of time. Because of the quality of our work we cannot allow insurance companies to dictate our services or the materials that we may use.

Please be aware that you as the guarantor are responsible for payment on your account in a prompt and timely manner, usually 30-45 days from date the service was rendered, whether insurance has paid or not.
